

Eyeline® Design electric screens

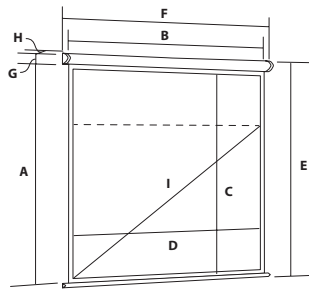

Electrically operated projection screens are supplied as standard with a 3m cable and wall switch

- Same unique patented click-on / click-off channel fix mounting bracket system as the Eyeline® Design Manual Screen opposite.
- Motor situated on the left hand side when face on
- Requires electrical installation
- Black borders to all 4 sides enhance the projected image, providing a professional presentation
- Additional black cloth to the top of video 4:3 and widescreen 16:9 models for optimal viewing height
- Optional extension brackets are available for clearing an obstruction or keystone adjustment
- Optional key switch, radio frequency or IR remotes

Distinctive triangular case design
